

## ***COMMUNITY RELATIONS***

CDE Capital aims to work in partnership with the communities in which we work, so that all stakeholders benefit from the relationship.

In particular it is a Company Goal to provide training and employment opportunities for local Indigenous people

- *Short term*, we will provide the necessary training to local people so that they can have employment during the time we are involved in the project
- *Long term*, after our involvement with the project is finalised we actively seek opportunities for ongoing work to be carried out by local people we have trained. This may include innovative acquisition arrangements to purchase the necessary plant and equipment.

We will do this by:

- Identifying opportunities for maximum community involvement
- Being honest and building trust and respect
- Listening to the community and ensuring there are avenues for their feedback
- Providing a work environment which is culturally appropriate
- Respecting their Culture and Environment
